

Dr. Tshilidzi Marwala

Professor Tshilidzi Marwala is Vice-Chancellor of the University of Johannesburg. Dr. Marwala is a registered professional engineer in South Africa, a Fellow of The Academy of Sciences for the Developing World, Academy of Science of South Africa, South African Academy of Engineering and a distinguished member of the Association for Computing Machinery.

He is a board member of Nebank, Chair of the Africa Health Research Institute, a member of the Namibian 4IR Task Team and trustee of the Nelson Mandela Foundation.

Dr. Marwala was a Deputy Vice-Chancellor and Dean of Engineering at the University of Johannesburg. He was a full Professor of Electrical Engineering, the Carl and Emily Fuchs Chair of Systems and Control Engineering as well as the South Africa Chair of Systems Engineering all at the University of the Witwatersrand in Johannesburg. Before this, he was an executive assistant to the technical director at the South African Breweries.

Dr. Marwala holds a BSc in Mechanical Engineering (magna cum laude) from Case Western Reserve University, a Master of Mechanical Engineering from University of Pretoria, PhD in Engineering from University of Cambridge and was a post-doctoral associate at Imperial College. His research interests include applications of artificial intelligence to engineering, computer science, finance and medicine.

Dr. Marwala has extensive track record in human capacity development having supervised 47 Masters and 31 PhD graduates to completion. Some of these students have proceeded with their doctoral and post-doctoral studies at leading universities such as Harvard, Rutgers, Purdue, Oxford, Cambridge, British Columbia and Concordia.

Dr. Marwala has published more than 20 books, over 300 papers in journals, proceedings and book chapters and holds three international patents. He was an associate editor of the International Journal of Systems Science (Taylor and Francis Publishers).

Dr. Marwala has received more than 45 awards including the Order of Mapungubwe from the South African Government and the President's Award from the National Research Foundation.
