*Dear representatives of international community,*

Since the night of 24th of February, Ukraine is under a full-scale attack of Russia. The invasion is ongoing from both East, South, and North, with heavy battles continuing in Kyiv. The Ukrainian cities are under shelling, with missiles often hitting civilian living quarters, and even functioning hospitals. The civilian people are seeking refuge by fleeing to the Western part of Ukraine. Logistics of all kinds is increasingly complicated. The hospitals have paused conducting planned surgeries in order to prioritize emergencies. Air raid siren are heard throughout all of Ukraine, even in the Western cities of Lviv and Ternopil. All of this combined with most of the commercial pharmacies being closed makes it extremely difficult for the civilian population to get access to even emergency healthcare.

Having said that, we would like to kindly ask you to support the Ukrainian people, who are in immediate need of receiving proper and timely medical care, by supplying us with the humanitarian aid of medical purpose. We are in dire need of:

**hemostatic bandage, medical splint, junctional tourniquet, intraosseous access, bandages, compression gauze, stretcher, Celox-A, occlusive-dressing, bone crankses, medical backpacks, ambulance car, roll mats, armored vests, helmets,**

Please provide delivery of the equipment to Poland.

For more information, contact Natalia Kalmykova+380633367586.

Respectfully

Natalia Kalmykova
