

The internal oral exam/interview

The oral exam is conducted in the format of an interview with JAC, during which the subject-related orientation and competence in the field of logistics are proven. Oral exam questions include but not limited to:

- The importance of logistics in the global and country's economy;
- The role of digital logistics in modern logistics and supply chain management;
- Logistics processes in the company;
- Basics of logistics infrastructure and operation.

Applicant's evaluation criteria are:

- Presentability;
- Motivation/ability to continue study;
- Level of knowledge of logistics issues;
- Work experience in the field of logistics.
