ABOUT ME

I attended the school "IB Mthiebi". At the moment I am nearing the end of my third year of studies at CU.

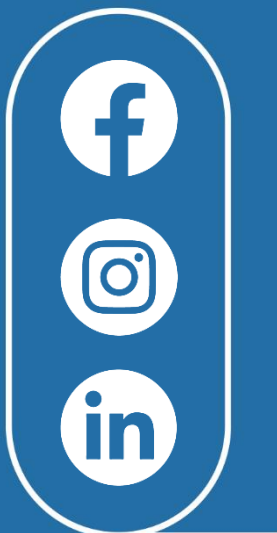

I am also working at Bank of Georgia. My everyday tasks evolve around customer behavior and satisfaction and product/service development.

Music has always been a huge part of my life. From a very young age I was actively singing, dancing and performing. I can even play a few instruments.

At the moment I am preoccupied with my studies and work, which gives me less time for my hobbies, but I can never imagine myself without my creative side.

I have also grown to love photography and I've even accumulated a pretty good collection of different types of cameras.

When I was choosing which university to attend my top pick was CU because of the mobility and the exchange programs it offers to all of its students. This exact will and aim of mine came true when I had the opportunity to spend an exchange semester in France. It was an eye-opening experience as it showed me how much I enjoyed being surrounded with different cultures and traditions. I plan on continuing my studies abroad as I believe it's a right way to develop and grow not only academically but personally as well.
