ABOUT ME

I'm a third-year student at the Caucasus School of Governance Public Administration program. Currently, I work as a Human Resources Specialist at a US-based company.

I truly adore HR as it enables me to continuously communicate with people inside and outside the company, learn more about their experiences, background, and aspirations, and lend a helping hand if the occasion calls for it.

Besides my work and studies, I enjoy playing chess and horseback riding. For the purpose of contributing extra time to CU's student life development, I founded Caucasus Chess Club which to this day is an active club.
