Program Volume in Credit Hours

In order to obtain the qualification determined by the program, the student must acquire 120 ECTS credits. The standard duration of teaching a master's program is two years, and the permissible duration is five years. 1 ECTS equals to 25 hours, which includes class hours and time spent on independent work (midterm and final examinations, as well as homework assignments).

The program envisages learning courses of a narrow sphere and of free components:

<u>Learning courses of narrow sphere (102 ECTS credits):</u>

- Mandatory learning courses 72 ECTS credits
 (Including Master Thesis 30 ECTS credits)
- Optional learning courses 30 ECTS credits

<u>Learning courses of free component (18 ECTS credits):</u>

- Mandatory learning course of university 6 ECTS credits;
- Free credits 12 ECTS credits.

Program Description

Admission Requirements

The persons applying for the Information Technology Management master's program need:

- To have Bachelor's degree in relevant or related field (engineering, business administration, natural sciences).
- To pass the General Masters Examination held by the Legal Entity of Public Law The National Assessment and Examinations Center.
 - Enrollment in the program without passing the general master's exam is carried out in accordance with the rules established by law.
 - Mobility to the program is allowed in accordance with procedures set by the relevant law.
- Successfully pass the entrance exam (includes components of English comprehension and writing according to B2 level and general logical and quantitative reasoning questions; A person may be exempted from this condition if there is a language proficiency document (IELTS-6.0, TOEFL-78, other relevant B2 level international certificate or other circumstances set by university regulation))
- Successfully pass the oral exam with the Caucasus School of Technology's Master's Admission Commission. The topics of the exams and evaluation criteria will be posted on the university's website.

General Information

During the program development it was taken into the consideration the experience of foreign universities, having the degree programs in the similar filed; The recommendations of leading specialists and professors of the partner universities (Tallinn University of Technology; Upper Austria University of Applied Sciences (Hagenberg); Kaunas University Of Technology), obtained through the exchange visits of school administration and professors, invoved in the program development, in the partner universities and also from the consultation meetings with the representatives of those universities carried out at the Caucasus University.

The feature of the program is the in-depth examination of a number of issues that have been selected in light of current and growing demands on information technology managers both in the Georgian labor market and internationally as well.

The program curriculum has a technical focus and gives good understanding of business operations and strategy. Students will learn how IT must be aligned with the strategy of the organization, and how to make appropriate choices about architecture in relationship to overall organization goals.

The teaching process of the program is based on modern methodologies of practice-oriented teaching taking into account the elements of scientific research. It focuses on in-depth learning of the disciplines enriched with the latest scientific or practical information management technologies. Compatible with modern international standards, the program enables the student to acquire deep theoretical knowledge in the field and to master good practical skills. The thoughtful proportion of the theoretical and practical components of the program provides the basis for a graduate to pursue a career as a prospective IT Management specialist, both in Georgia and abroad.

Program Objectives

The objectives of the program in Information Technology Management are to:

- Give students an upportunity to develop research skills in information technology management, deep knowledge of information technology as well as business management methodologies and thereby ensure their employment in leading positions according to their qualifications;
