ABOUT ME:

I'm Eleni, a 3rd year Caucasus University law student. I've known since middle school that I would choose law as a career path. Apart from the studying aspect, music and films play a big part in my life, as it is something I reach for in my leisure time. I've always been very enthusiastic about taking part in projects and planning activities. It's not only a way of personal growth, it also allows you to get to know other people.
