## ABOUT ME:

My name is Nutsa Jighauri, and I am currently a second-year medical student enrolled in the English-language Medical Doctor Program at Caucasus University. From an early age, I have been actively engaged in various youth initiatives and international platforms. Notably, I was the winning delegate of Model United Nations Georgia 2019, an experience that significantly strengthened my communication and leadership skills, and nurtured my sense of social responsibility. I am passionate about medicine and fully committed to my academic and professional development. My ultimate goal is to become a highly qualified reproductive specialist, contributing to the improvement of individuals' lives and well-being through this meaningful field. Outside of academics, I find joy and balance in my hobbies. I have a deep love for music—I play the piano and enjoy singing, which serve as both a creative outlet and a form of emotional expression. I also maintain an active lifestyle through sports, which help me stay focused, energized, and mentally resilient.
