

## VIRTUALLYEDU Updates

The VIRTUALLYEDU project continues to address the challenges of the digital gap, revealed during the shift to online learning amid the COVID-19 pandemic by the implementation of the Training Curricula Developed through the Virtual Youth Exchanges.

We are delighted to share that dedicated social media pages for the VIRTUALLYEDU project have been launched. These platforms will serve as hubs for the latest updates, announcements, and insights from our journey.

Additionally, our partnership team has prepared awareness-raising articles based on the valuable feedback received from the 1st Circle of Virtual Exchanges

## 1st Circle of Exchanges

The 1st Circle of the Virtual Exchanges brought together participants from Georgia, Sweden, Armenia, and Greece, who worked collaboratively via Zoom and online activities. The program focused on enhancing their knowledge of digital skills, cybersecurity, and digitalization, while also fostering cross-cultural understanding and teamwork.

VIRTUAL EXCHANGES  
AND EDUCATION ON  
DIGITAL SKILLS

## Digital Hackathon

A digital hackathon is a collaborative event, during which participants come together to develop innovative solutions to specific problems, typically related to technology or other digital creative fields.

In VIRTUALLYEDU Team 1, consisting of Demetre and Anastasiia, secured the top spot with an impressive 65 points. Their project, based on Course 5: "Multiliteracy and Safety on Social Media," focused on creating a browser extension or mobile app to help users navigate social media safely. Their solution was recognized for its originality and potential impact, earning them the highest score and top honors.
