

Nini Gabadze

Caucasus School of Business

Business Administration Bachelor Program

Tuscia University, Italy

As part of the Erasmus+ exchange program, I spent the fall semester of 2024 in Italy, at Tuscia University. When I received the answer, my whole family was focused on my departure and we were preparing together. Now, I can say how ideal of an experience it was for me. In Tuscia, I was able to develop qualities that would be useful to me in the future. I became much more independent and self-confident. I received an education in subjects that I put a lot of effort into, I got in touch with professionals and made a lot of friends. I still keep in touch with them today, and they are also planning to come to Georgia. In terms of adaptation, Caucasus University helped me and stood by me during all of my decisions and helped me solve all the problems.

I am glad that I gained such a beautiful and impressive experience through this program. These 5 months will be remembered as one of the best memories and I will definitely return to Italy, specifically to Viterbo.

I can consider this decision to be one of the best, since I came back from Italy changed for the better. I would like to encourage all students to have this experience!
