

Tamar Simonia

University of Technology and Arts in Applied Sciences in Warsaw, Poland

On July 7-11, within the framework of the Erasmus+ administrative mobility, Tamar Simonia, Head of the Scientific-Practical Center (Architecture Studio) of the School of Architecture and Design of Caucasus University, participated in the International Week program at the University of Technology and Applied Sciences in Warsaw, Poland.

During the International Week, the university representative was involved in various activities aimed at sharing experience, deepening international cooperation, and introducing the opportunities available within the framework of the Erasmus+ program.

Within the framework of the program, the participant gave a presentation about Caucasus University and spoke about ongoing programs and international projects. She also participated in interactive sessions and workshops that included the creation of spaces adapted for people with disabilities and simulations based on this vision. The program also included a cultural component, a Polish language master class and a sightseeing tour of Warsaw's Old Town and Palaces.

The mobility was an important step in expanding Caucasus University's international engagement and strengthening existing partnerships within the framework of the Erasmus+ program.
