

Lile Chelidze

**Bachelor's Program in Business Administration in English
Caucasus School of Business
Lille Catholic University, France**

Studying in an international environment is one of the most meaningful and transformative experiences in a student's academic journey. It is a time when you begin to see your personal and intellectual growth every day, gradually becoming the person you have worked hard to become.

For me, this experience is closely connected to the time I spent in the French city of Lille, where I had the opportunity to study at Lille Catholic University, IESEG School of Management, one of the leading business schools in France, known for its strong academic standards and outstanding professors. Being part of this environment had a positive impact on both my academic and personal development. It allowed me to better understand my field of study, gain practical knowledge, and develop valuable international experience.

At the same time, I had the chance to meet students from many different countries. Through these interactions, I learned from diverse perspectives, experienced new cultures, and shared many memorable moments.

"Lile in Lille" is a phrase that represents a very special chapter of my life. My time in Lille showed me how important self-confidence, courage, and determination are in achieving one's goals.

I would like to express my sincere gratitude to Caucasus University for its support and for providing me with valuable opportunities for both academic and personal growth. Today, through the Erasmus+ program, I continue my studies in the city of Kraków, where I face new challenges every day and continue to strengthen my knowledge, skills, and international experience.
