

Sandro Vakhtangadze

PR and Communication Bachelor program

Caucasus School of Media

SMK College of Applied Sciences, Lithuania

I spent spring 2026 semester in Vilnius under Erasmus+ programme . This exchange project was one of the best, the most impactful experiences of my life and I'm sure the months spent in Lithuania will stay in my memory forever.

At SMK, I had an opportunity to study in multicultural environment and collaborate with students and lecturers from various backgrounds. Through this collaborations I gained new perspectives and observed different approaches, which will benefit me in the future throughout my personal journey.

On top of that, Erasmus was an incredible cultural experience. Apart from learning about local culture and finding out more about Lithuania's history, I met people from countries across the world, found common ground and interests and built friendships with them despite having vastly different life experiences. I got better understanding of their worldviews and ways of living, and broadened my horizons. At the same time, I was able to introduce Georgia to them, discuss our country's history and culture, as well is its current state, which filled me with great sense of responsibility and pride.

Erasmus helped me become more independent, reflect on my personal growth and appreciate every opportunity in life. I believe its impact will shape important aspects of my life in the future.
