CAUCASUS UNIVERSITY

Established in 2018, Caucasus School of Economics has the mission to implement modern attitudes and values of economic science and to prepare highly qualified specialists. The School also brings up specialists in different sub-disciplines in economics, such as Micro-macro-Economic theory, Experimental and Applied Economics, Economic policies (social, innovative, investment, industrial), Health Economics, Fiscal and Monetary Economics, Public Sector Economics, Demography and Urban Economics. The program provides students with broad knowledge of economic theory, introduces modern economic research methods and ways of their application in practice, as well as peculiarities of market economy mechanism in the context of micro, macro and international economics. In addition, the program helps students to apply knowledge in practice, interpret economic information appropriately and carry our research. After completing the program, students will be equipped with all conceptual and technical skills in economics, necessary to get appropriate positions and employment worldwide.
