

## Caucasus Tourism School (CTS)

"I started Caucasus University in 2016 and I think it was one of the most correct choices in my life. I graduated from CTS in 2020 and for 4 years I was able to maintain the status of N1 student ranked in the faculty, which was not easy, but it brought excellent results.

In 2020, I joined the leading management consulting company in Georgia - C-team, where I was able to make the most of the knowledge gained at the university and cooperate with the largest companies in Georgia together with a highly qualified team with foreign experience. Today I hold the position of Project Manager of the company and manage strategic and organizational restructuring projects in companies such as: PSP, IDS Borjomi, Element Construction, GRID Construction, CMC and others.

Also, in 2021 I became a certified ISO specialist in ISO: 9001, ISO: 45001 and ISO: 19011.

I am continuing my studies in the Master of Business Management program from 2021 and I think I will be able to conquer many more peaks ahead. The main thing is hard work, diligence and desire to become better than you are today!"
