

Ana Martiashvili

Lille Catholic University, France

Caucasus Business School

„The trip to France was not really planned, it was a flash of spontaneous thought, which in a few months became a reality. Happy and pleasant moments are indescribable: I met people of many nationalities, traveled to European countries and acquired new qualities and skills. It was unbelievable to me that even the humor of the exchange students (from different countries) would be different.

The only obstacle I encountered was getting used to the alien environment, the rhythm of my new life and the system of learning, but the administration of Lille Catholic University is always ready to support and help. The Erasmus + exchange program allowed me to develop as a person, to experience unforgettable adventures and feelings.”
