

Ana Tediashvili

FH JOANNEUM, University of Applied Sciences, Austria

Caucasus School of Business

„My story begins at the beautiful city of Austria, which has given me the opportunity to create the new lifestyle- different, active, full of constant novelty and most importantly, oriented on receiving European education and experience.

During my studies, I have explored many new things, especially I liked modular studies, which has enabled me to allocate time easily and to see not only Austria but other European cities from another perspective, to travel more and feel myself as a member of a big group, which is called European family. With this program, I had the opportunity to share culture of other people and therefore to introduce mine to others.

Self-confidence and striving towards my goals, these are the characteristics that this program has given me. I have convinced that opportunities are unlimited, when you have a vision and want to receive the most important experience, leaving independently.

Thank you to Erasmus+ program and Caucasus University for this opportunity. And lastly, Auf Wiedersehen!”
