

Juba Kurashvili

University of Valladolid, Spain

Caucasus Business School

„The main challenge of the exchange program for me was to live independently, and being away from loved ones was made easier for me by pursuing a European life experience and a high quality education. Spaniards are amazingly warm, positive people and have a close-knit social culture. Here I saw what I want our country and society to be like. Education in Spain is practice-oriented, which I like very much.

It is noteworthy that the credits obtained at the University of Valladolid under this program are fully compatible with the program of the Caucasus University. Thank you to Erasmus+ Program and Caucasus University for giving me such an opportunity!”
