FH JOANNEUM, University of Applied Sciences, Austria

Caucasus School of Business

„One of the reasons of applying for Caucasus University was the participation in the Erasmus+ exchange program. Accordingly, given the opportunity, I have decided to participate and traveled to Graz, Austria. Certainly, I had realized from the beginning that I would face unfamiliar challenges, implied by different lifestyle and learning methods. Upon arrival I was fascinated by this small college town, whereas the receiving institution has exceeded expectations.

The learning method was different from my University, but it was not difficult, on the other hand, it was very interesting. Professors, who have been mainly invited from different countries of the world, were actively sharing their professional experiences and offered very interesting and interactive classes and group activities in order to become closer with one another and to introduce the culture and lifestyle of our countries with each other. Within the time spend in Graz, I have acquired knowledge and skills, which will help me for future professional development. This has definitely been one of the best decisions of my life and I think, that given such opportunity, students must participate into this program.”
