

Nino Pilauri

Frederick University, Cyprus

Caucasus School of Business

„When I find out that I was going to Cyprus as an Exchange student, I have realized that the days filled with happiness, adventure and memorable was ahead. Erasmus+ program has enabled me to receive biggest experience, to leave and study abroad, familiarizing myself with another country and culture and to meet people of various nationalities. During these 4 months, I have earned lots of friends, traveled and became stronger and more independent.

I was introduced to the different learning methods, which has made leaving and studying in the foreign country more interesting. ESN (Erasmus+ Students Network) has tried on a daily basis to make each day unforgettable. Now I certainly know, that this was most fruitful semester and phase of life, which has helped me to grow personally and career wise. This was the best decision and chance that the University has given me!”
