

Tamar Nozadze

Budapest Metropolitan University, Hungary

Caucasus School of Business

„I have decided to participate into the Erasmus+ exchange program spontaneously. Apart from studying according to European standards, I have received the biggest lifelong experience, traveled a lot and earned new friends from different countries and I managed to leave my comfort zone.

Despite difficulties, I will remember this period positively and I will miss Budapest, and the days spent at the Metropolitan University. I think that I have returned as a more independent and self-developed person. Thanks to Caucasus University for this chance, which I think every students should use.”
