

Valeria Kikvidze

Caucasus School of Business

University of Valladolid, Spain

„I've had a big desire to participate into the Erasmus+ exchange program and I was lucky, because I have received such experience in a desirable country. Despite the pandemic, which has been very difficult for the whole world, I cannot be dissatisfied of my adventures. ESN (Erasmus Student Network) has always tried its best to organize events and to create unforgettable memories.

I would like to highlight, that such opportunities are indeed delightful and one doesn't have to miss such chance. Meeting people, change, trying new things and leaving the comfort zone, shows completely different perspective of life. This semester will always remain as a period of an admiration which I will always remember.”
