

Mariam Abesadze

Kauno kolegija

„In May, within the framework of Erasmus + administrative staff mobility, I visited Lithuania, the purpose of the visit to kauno kolegija (Kaunas) was to participate in the International Staff Week program, which brought together 51 administrative and academic staff from 18 different universities.

The aim of the week was to share the best international experience among the participating universities, such as: Erasmus+ international student and administrative mobility, promotion of international research, etc.

A workshop on personalization of curriculum design was also planned as part of the mobility. Which turned out to be an invaluable experience for me as a guest lecturer.

The international week, with its scope and theme, was the best opportunity to receive and share new knowledge and experience.”
