Aurel Vlaicu University of Arad, Romania

"On May 27-31, as part of the Erasmus+ International Week, we visited Aurel Vlaicu University. During this mobility period, we had the opportunity to meet with representatives from seven universities from Asia and Europe to share experiences in the field of internationalization.

Within the framework of mobility, we participated in various interactive sessions and workshops and introduced Caucasus University to stakeholders, discussing current programs and projects and exploring prospects for future cooperation.

In parallel with the workshops, the university organized a tour, allowing us to acquaint ourselves with the history and culture of Romania."
