

Lizi Gagua, Mariam Gioshvili

University of Economics in Katowice, Poland

„On May 12-17, within the Erasmus+ Administrative Training program, we had the possibility to participate in the Er International Staff Training Week, organized by University of Economics in Katowice.

During the mobility, we participate in the trainings, related to the “Soft Skills in International Setting”. We also had the possibility to meet other participants from different countries and Universities, exchanged experiences and listened to interesting opinions within the thematic of the training.

Alongside the busy work meetings, we were offered the opportunity to explore BaseCamp of the University of Economics in Katowice and to see the technologically advanced library, which has been quite impressive. The tour to Krakow has also been organized for the participants to explore the history of the city.”
