

Dea Dashniani

FH Joanneum University of Applied Sciences, Austria

Caucasus School of Business

“Studying at one of the top universities of Austria FH JOANNEUM | University of Applied Sciences during the Erasmus+ Exchange Program was a significant experience of my life.

I had the chance to get a higher education from professionals, who had pursued their careers in the world’s leading companies. Most importantly, I made connections with people around the globe and I collected unforgettable memories with them. The program provides the opportunity to evolve professionally, as well as, personally since dealing with all the difficulties that arise independently in a diverse environment during the exchange semester, develops essential skills that stimulate further career advancement.”
