Turība University, Latvia

„I spent the Fall semester of 2024 in Riga, Latvia, as part of the Bilateral exchange program at Turība University. The experience far exceeded my expectations, as, in addition to exciting academic opportunities, I made incredibly valuable international friendships.

Turība is one of the leading universities in Latvia, where the interior design clearly reflects the unique culture of the country. The colorful, bright, and cozy spaces were designed to provide a comfortable and creative environment for students.

Academically, theoretical learning was always paired with practical projects. During my studies, I worked on real marketing campaigns and took part in creating digital advertisements. However, what truly sets Turība University apart is "Turitis" – a white cat who, for 17 years, has been the university's loyal companion and symbol. The presence of "Turitis" not only created a friendly atmosphere within the university but also helped foster a positive mindset before each lecture, something all students needed for productive work.

I cannot overlook the fact that the most valuable and emotional memories I made in Latvia are related to intercultural interactions. Living on campus was, without a doubt, one of the best decisions I made, as it allowed me to connect with students from various backgrounds. We exchanged cultures, traditions, cuisines, and lifestyles. We also planned and went on several trips together, which made daily life even more exciting and diverse. The exchange program not only enhanced my academic and professional skills but also taught me to embrace new experiences, ultimately leading me to the global community and completely transforming my perspective on international relations.”
