

Rusudan Chachanidze

Krakow University of Economics

"I am happy that Caucasus University gave me the opportunity to benefit from the Erasmus + academic staff exchange program. As part of the program, I traveled to the Krakow University of Economics, where I worked with students in marketing and business innovation programs. It was very pleasant and interesting to work with the students of the Krakow University of Economics.

There was a lot of interest in the offered lecture course, which also led to the fact that we continue to communicate, exchange materials and opinions even after the end of the program. In addition to the training course, the professor of Krakow University of Economics was interested in research cooperation with Caucasus University. I hope we will continue to cooperate on this topic. The Erasmus + program was a very rewarding and enjoyable experience for me".
