

David Aslanishvili

Tuscia/Italy

“The heart of Etruscan ancient civilization - the city of Tarkvynia, one of the most amazing place of Christianity - the city of Viterbo and the most beautiful city of Italy - Florence. All of this was introduced to me in the fall of 2017 in the framework of the Erasmus program of Caucasus University and Tuscany University. Within the framework of the program a lecture-seminar on "Monetary Policy and the Role of Central Banks" was presented, there was a very active discussion on the problems of the European Central Bank, the US Federal Reserve Bank, the Japanese Central Bank and the action of the regional central banks. The causes of financial crisis and its course in the banking sector were analyzed.

Curriculum and news were shared with academic staff. I would like to express my gratitude to CU and the international departments of the University of Tuscany for a well-organized and well-planned schedule, which enabled the high quality and success of this program. "
