

Elene Gogolashvili

Caucasus school of Business

Bilateral exchange program participant (Istanbul Bilgi University)

"Enrolling at Caucasus School of Business in 2019 marked the start of an incredible journey for me. As a senior student, I grasped the chance to study abroad through a bilateral exchange, leading me to Fairleigh Dickinson University in the US.

A year of living and learning across the ocean in a new country, adapting to cultural diversity, meeting diverse people, and embracing fresh perspectives ignited tremendous personal growth, enriched my life experience, gave me unforgettable memories, and ultimately deepened my knowledge in finance, investments, economics and marketing on a global level. For which I am very grateful to the Caucasus University, not only for this opportunity, but also for this for continuous support during the period.

I share my story especially with all students and young people to inspire them that everything starts with a dream and that it can become an extraordinary reality."
