**Tuscia/Italy**

„It's a magnificent country where Michelangelo brought the Emperor's dreams to life" - It is inconceivable not to be fascinated by Italy, which is an exemplary center of empire, democracy and centuries-old education. From Gladiators to Ferrari this country is astonishing and unforgettable.

Education is one of its strengths. The city of Viterbo and its Tuscan University are exactly the place anyone would want to come to, as modern approaches and ancient antiquity create a wonderful tandem.
