

Maia Matchavariani

LCC International University

„In April 2023 I took part in staff mobility for teaching and training activities Erasmus+ project. I visited LCC International University in Klaipeda, Lithuania, during my academic exchange.

As a part of my mobility, I completed different activities: I conducted lectures for undergraduate students of psychology faculty on neuropsychological evaluation and assessment as part of Methods of Psychological Assessment, participated in Practicum meetings with students, and shared my professional experience of clinical practice in Georgia to students and colleagues; I observed thesis presentations and defenses of graduating seniors and also delivered a public presentation about Caucasus University and ongoing undergraduate and graduate programs in psychology for international students.

Also, I had the pleasure of meeting Georgian students studying at LCC University as part of cultural and social events and also enjoyed a wonderful City tour with Radvyda Vaišvilaitė, Chair of the Lithuanian Studies Department.”
