

Mariam Menabde

Riseba University, Riga

As a participant of the Erasmus+ Academic Staff mobility program, I was in Riseba University (Riga) in April 2023.

During the visit, I conducted a lecture on the subject of "Retail Interior Design" with the 3rd year Bachelor of Architecture students. During the lecture, we also worked on a specific topic, on which the students prepared presentations.

Within the framework of the visit, I also held a public lecture "Architecture of Tbilisi", which was attended by students of all levels of the Faculty of Architecture and Design, including Lecturers and Professors of the University. The public lecture was also held online, so anyone could attend.

In addition to the scheduled lecture hours, I've met RUDOLFS DAINIS ŠMITS (LV) - Dean of the Faculty of Architecture, MA Architecture program director and ZANE VĒJA (LV) - BA architecture program director. We discussed possible future cooperation opportunities. They were really interested in the future cooperation. We continue to work actively in various directions, which will contribute to raising the qualifications of our academic staff and students, both for – scientific point of view and practical experiences.
