

Natia Korkashvili

Powislanski University, Poland

In May 2023, within the framework of "Erasmus +" mobility, I visited Povyslansk University, as part of the "International Week 2023" together with representatives of universities from other countries.

The international week lasted for 5 days and included various activities. Among them: participation in the 5th international exhibition of higher education, where I gave a presentation about the Caucasus University. I met representatives of different universities and we exchanged information for further cooperation. Also, I attended the 10th international scientific conference "FACES OF PROSPERITY" and the 5th international student conference, where we heard and discussed very interesting research.

In general, with this visit, I got to know not only the principles and specifics of the universities' work, but also the culture and traditions of the countries involved in the mobility. The host university organized daily cultural activities, which made the 5 days of the international week even more colorful and interesting.
