

Tatia Chokoraia

LCC International University

Within the framework of the “Erasmus + program”, I visited Christian Liberal Arts University (LCC International University) (Klaipeda, Lithuania). During the fruitful working week, I met with the representatives of the administration and lecturers.

I would like to distinguish some of the meetings: I discussed plagiarism prevention policy and an academic integrity issues with Joseph Harder, Dean of the Faculty of Humanities; And with academic writing lecturer Irene Bronsik, I discussed the specifics of teaching academic writing, student challenges, teaching methods and issues of academic integrity.

In addition, I also met with the manager of the Student Success Center, who introduced me to the university's system for trainings in writing. I also attended lectures and defense of students' MA theses. I think a one-week program was useful and interesting. Along with busy work meetings, LCC university gave me an opportunity to have city tour of the old part of Klaipeda, as well as to enjoy the calm and pleasant campus of the university, and to get to know closely the American family of the academic writing lecturer, which added a unique charm and emotion to the working week.
